Clearwave Insurance Eligibility-as-a-Service

Clearwave offers the most reliable real-time eligibility verification engine on the market. Accelerate cash flow by instantly seeing co-pay amounts and verifying primary, secondary and tertiary benefits every time the patient is touched to ensure coverage has not lapsed. Clearwave never charges transaction fees, so you can ensure you have the latest patient benefit information, without breaking the bank. This leads not only to a potential 90% decrease in insurance claim denials, but also to a 65% improvement in collection rates by presenting the correct co-pay to every patient at check-in.

THE CLEARWAVE ADVANTAGE

INSTANT VERIFICATION OF BENEFITS
Eligibility is run automatically in real-time from the scheduling of the appointment to patient check in. Results are organized in a consistent format and include only the benefit data relevant to your specialty.

CHECKS EVERY PATIENT ENCOUNTER
Accelerate cash flow by instantly verifying primary, secondary and tertiary benefits on average 7 times per patient engagement.

CLEARWAVE DASHBOARD
The Clearwave dashboard is built with alerts flagging data conflicts, other payers on file, managed care information and more. Staff can fix errors that could result in a denied claim and you can reduce your insurance claim denial rate up to 90%.

INCREASE STAFF PRODUCTIVITY
Free your staff from the time-consuming tasks associated with eligibility verification and reduce errors with greater data accuracy, freeing your staff to work on higher value activities.

CLEARWAVE PAYER NETWORK
Connections with over 900 payers means instant response from over 95% of your payers.

VSP ELIGIBILITY & AUTHORIZATION
Clearwave allows practices the ability to verify VSP eligibility and get VSP authorizations through our direct connection to Eyefinity, which is verified and displayed our standard format. Authorizations can be pulled manually per appointment or in batches prior to the visit. Rules can be applied to batches to pull materials, services, or both, and can be set to only pull for selected providers, appointment services, and/or appointment locations.

ELIGIBILITY-AS-A-SERVICE
We're here to help you solve issues such as parsing co-pays correctly, filtering benefit information to your specific needs and removing unecessary data from view. Because of the breadth of our payer relationships, we'll be there to help if a connection fails.

WITH CLEARWAVE, YOU CAN:

DECREASE INSURANCE DENIALS BY	ACCELERATE CASH FLOW BY	REDUCE STAFF WORKLOAD BY
90%	65%	2X
